

ARP Press Release

03/14/2008, Harrisburg, PA.

Applied Research and Photonics' Chief Technology Officer, Anis Rahman, has been named a nominee for the Technology Council of Central PA's "Outstanding Leadership in Technology" award for 2008. In a press release, Kelly Lewis, CEO of the TCCP pointed out that, "The Technology Council of Central Pennsylvania announced today the nominees for the 16th Annual Technology Awards Gala which will be held on Friday, March 28, 2008 at the Whitaker Center for Science and the Arts in Harrisburg, Pennsylvania. The list of nominees (see complete list below) includes organizations from across Pennsylvania who are leading technology innovation and exemplify a true passion for growing, innovating and succeeding in Pennsylvania." The Awards Gala honors industry excellence. The black tie event starts with a Welcome Reception at 5:30 p.m. followed by the Amazing 59-Minute Awards Ceremony. The celebration continues with the TechQuest Technology Blast, sponsored by Harrisburg University of Science and Technology, starting at 7:30 p.m."

Individuals who have gained reputation within industry are recognized in the category of "Outstanding Leadership in Technology." A nominee in this category must be a developer of new technologies; must have committed time or resources to benefit technology businesses in the region and must have made a major personal contribution toward advancing growth of the technology industry in the state.

About Applied Research and Photonics Inc. (ARP)

ARP is located in Harrisburg, PA. ARP is developing a high power terahertz source from dendrimer and also a number of advanced photonic components based on its proprietary nanophotonic integrated circuit (nPIC) technology. ARP wishes to thank its well wishers and friends for their continued support.
